A BUCKET OR WASHBASIN?

Brand- Scarabeo Ceramiche

USP- Suitable for public areas: gyms, restaurants, bars, clubs and schools, but also bathrooms for the kids' rooms or for those who love to dare with a rather informal bathroom decoration

Contact- info@scarabeosrl.com

Designed by Giovanna Talocci, a playful use of bucket is resulted into a new bath accessory. Washbasins and washstands come in total white, or are characterized by decorative motifs, such as the fish jumping out of the water, or evocative, such lace along the edge or swallows on a line, or simply geometric patterns. **No part of the bucket is left idle; the handle is used as towel bar both in the wall-mounted and countertop versions.**
