## STYLE NOTES

Playful, yet functional is the theme of these décor accessories.

**DESIGN EVOLUTION** To celebrate the 10th anniversary of the Inside Out line of illuminating vases on the design scene, VG has presented an unusual photo-gallery which expresses the essence in a thrilling selection of historical images.

### No more banal

The subjects for the Egizia Beauty vases are the lipstick and handbag mirror, created using silk screen-printing techniques with enamel and silver. The POPIT collection from Luisa Bocchietto, has a strong personality and comes in three sizes.

### Playful forms

The washbasin takes centrestage with the Bucket collection from architect Giovanna Talocci. It stands out for its clean lines. The handle of the bucket becomes a towel bar.

### CHARMED SLEEP

The Daytona bed from Cinova, by Claesson Koivisto Rune, has minimal dimensions. The headboard and sides come together in a single, embracing shape.

### NEW AGE

The Sedia NA012 chairs from Cartiero's New Age collection feature a streamlined design and delicate champagne lacquers that highlight their graceful silhouette. The backrests are carved with the hallmark motif.

### Functional fun

The Tivoli range uses silicone, which is easy to maintain and a practical material due to its thermal stability.

### LUXURY THAT LASTS

The sideboard in Seventies style, from Gherardini's Signoria collection, is characterised by a leather cover with orange stitching, doors and drawers in semi-glossy wengé veneer and golden brass legs.
