

# SCARABEO REINTERPRETS THE COMMON SINK DRAIN DESIGN

A modern day sink drain design and style does not have to be boring! Witness the Scarabeo horizontal drain that cuts through the whole length of the basin. Just when you thought there was absolutely nothing left that would amaze you in the bathroom sink world! Introduced in the new sink series Mizu, the revolutionary drain is not camouflaged as in most today's sinks but instead, it's created into an object of interest, adding an intriguing aesthetic with its graphic straight line design and style. Made by Emo Style, the Mizu ceramic sinks are obtainable in round and rectangular shapes, and in countertop and beneath-mount versions. This modern sink style will function with any bathroom - the style is sleek and sophisticated but there's some thing playful about that drain. It's the unexpected piece in the puzzle, the piece that draws your focus. Drains are supposed to be round. And in the middle of the sink. Aren't they? Scarabeo has been placing together incredible bathroom fixtures for over fifty years. And becoming Italian, they know porcelain effectively. The company's philosophy is to make the washbasin the focal point of the room. And as lengthy as they preserve producing winners like this, it's a certain issue.
